Spanish

ABOUT

Since the beginning of my career working in the international environment. Each day trying to improve both hard and soft aspects of software development in order to get the most out of the time spent working. Mostly dealing with JS technologies but had quite some experience in native iOS development as well.

Tech nerd, car enthusiast,
casual gamer.

Co-founder of 3kliks
Digital Solutions Studio

- Branding & UI/UX design
- Software production & deployment
- Long-term updates & support
